TRAFFIC DECK SYSTEMS

**Flexolith**
Heavy-duty epoxy overlay system for ramps, helixes, and other high traffic areas.

**Tammsdeck**
Waterproof, elastomeric urethane membrane offering high wear and abrasion resistance for driving lanes and parking stalls. This fast setting system allows for a quick return to traffic.

**Flexdeck**
Waterproof, lightweight, urethane/epoxy system that utilizes a flexible, waterproof urethane membrane and a high strength, abrasion resistant epoxy wearing surface.

**Dural 50LM**
Ultra low viscosity low modulus epoxy used for sealing concrete and grouting cracks. It can be gravity fed or pressure injected.

---

PENETRATING SEALERS

**Baracade Silane 100 C**
Pure silane sealer that protects concrete exposed to high levels of salt, moisture, and freeze-thaw conditions.

**Baracade Silane 40**
Solvent based, 40% silane water and salt repellent for horizontal and porous vertical surfaces.

**Baracade Silane 40 WB**
Water based, 40% silane water and salt repellent for horizontal and porous vertical surfaces.

**Baracade WB 244**
Water-based silane/siloxane blend used to protect horizontal concrete surfaces against water and salt damage.

---

CATHODIC PROTECTION

**Sentinel Galvanic Anodes**
Innovative, v-notch configured self-generating cathodic protection system that is easy to install and fits any size rebar. Sentinel Galvanic Anodes mitigate the corrosion of reinforcing steel in concrete structures and promotes the longevity of the concrete by minimizing the spalling and cracking that result from corrosion.

---

EPOXY BONDING/ANCHORING AGENTS

**Duralprep A.C.**
High performance bonding agent and anti-corrosion coating ideal for bonding fresh concrete to existing concrete, and repairing and restoring concrete surfaces. Duralprep A.C. provides an anti-corrosion coating when applied directly to steel reinforcement.

**Dural 452 Epoxy System**
Epoxy adhesive used for bonding, anchoring, and repair of cracks in concrete. Dural 452 is available in low, medium, and gel viscosities.

---

JOINT FILLERS AND SEALANTS

**Eucolastic 1NS, 1SL**
Polyurethane joint sealants available in non-sag and self-leveling consistencies with excellent movement properties and fast cure times.
**STRUCTURAL & SURFACE REPAIR**

**EucoRepair V100**  
One-component, fast-setting, very low shrinkage repair mortar fortified with polymers and fiber reinforcement used for vertical and overhead repairs requiring high performance.

**Eucocrete Supreme**  
High performance, rugged form and pour repair mortar with an extended working time that is ideal for large or small jobs.

**Euco QWIKstitch**  
Fast-setting urethane used to mend cracks and fill spalls with a traffic-ready time of only 30 minutes.

**Concrete-Top Supreme**  
One-part, latex and microsilica modified cementitious mortar designed for horizontal concrete repairs at thicknesses of 3/8 to two inches (10mm - 50mm).

**Thin-Top Supreme**  
One-part, latex and microsilica modified cementitious mortar designed for use as a floor or deck topping at thicknesses of 1/16 to 3/8 inch (1.6mm - 10mm).

**WATERPROOFING PRODUCTS**

**Vandex Super**  
Cementitous coating that provides negative or positive side waterproofing through a crystallization process. After application, crystals block capillaries and minor shrinkage cracks to prevent water ingress.

**Tamoseal**  
Cement-based, polymer modified waterproofing coating for above and below grade concrete surfaces.

**Dural Aqua-Dam**  
Urethane-based chemical grouts used to inject cracked concrete and prevent water from entering buildings, above or below grade.

**Speed Plug**  
A quick setting hydraulic cement compound used to instantly stop running water or seepage leaks in concrete or masonry.

**ARCHITECTURAL COATINGS**

Euclid Chemical architectural wall coatings provide weatherproofing and aesthetic finishes to concrete and masonry structures.

**Tammscoat**  
High build, decorative, water-based acrylic anticarbonation coating used to protect concrete and masonry surfaces. A variety of colors and textures are available.

**Aquastain T-96**  
Water-based liquid polymer stain for vertical surfaces.

**Tamms AG 400**  
Permanent anti-graffiti coating utilizing a two-component, aliphatic urethane coating system.

**CURING AND SEALING COMPOUNDS**

Euclid Chemical provides a wide array of solutions for curing and sealing concrete. See Euclid's Curing and Sealing brochure for more details.

REPAIR SOLUTIONS
CONCRETE REPAIR AND PROTECTION FOR PARKING STRUCTURES

Whether your parking facility is precast, cast-in-place, or post-tensioned construction, Euclid Chemical offers complete solutions for concrete repair and protection. As unique as your repair or project demand may be, Euclid Chemical systems will proactively protect your investment from the expensive and damaging effects caused by:

- Water leakage through cracks and joints
- Chloride ingress
- Pollution
- Freeze thaw cycling
- Wearing from repetitive traffic patterns
- Typical mechanical movement that causes spalling, reinforcement corrosion and other distress

New construction and repair applications include traffic and parking deck coatings, penetrants and overlays, stairwell repair and coatings, joint sealants, surface repair and corrosion protection in commercial, retail, institutional and multiresidential parking facilities and parking lots. Euclid Chemical systems are engineered to eliminate costly repair downtime and get your facility back to full operation effectively and efficiently.

BUILDING GREEN
The Euclid Chemical Company offers an extensive line of products that are specific to LEED (Leadership in Energy & Environmental Design) guidelines. The LEED Green Building Rating System provides a national standard for defining an environmentally friendly, sustainable “green” building. Points are awarded to building projects based on water savings, energy efficiency, materials and indoor environmental quality.

INDUSTRY LEADERSHIP
The Euclid Chemical Company is unique in our offering of superior products, and unparalleled customer service and industry support. The Euclid Chemical team delivers a range of value-added resources and in-depth industry experience to architects, designers, contractors and building owners.

Comprised of highly trained professionals in local offices across the Americas, our experts are active members on industry technical committees including the American Concrete Institute (ACI), International Concrete Repair Institute (ICRI) and American Society for Testing and Materials (ASTM). Our experienced field team is available to support you and your projects using Euclid Chemical solutions and products manufactured under the stringent standards of our ISO 9001:2008 certified quality system.

VALUE ADDED SUPPORT

TECHNICAL SUPPORT
Our Technical Support group provides real-time solutions regarding product and application questions. We can be reached toll free at 1-800-321-7628 or you can visit our website at www.euclidchemical.com.

LABORATORY SERVICES
Our world-class Cement and Concrete Reference Laboratory (CCRL) inspected facility is equipped with state-of-the-art technologies and staffed by an exceptional team of professional ACI certified technicians.

TRAINING
The Euclid Chemical Company generously shares product information and technical knowledge through training and seminars conducted for project owners, contractors, distributors and design professionals.
For over 100 years, The Euclid Chemical Company has manufactured top quality products formulated to meet the demands of the ever changing concrete and masonry construction industry. Marketed under the Euco, Eucon, Dural, Speed Crete, Increte, Vandex, Sentinel, Tuf-Strand, and Tamms brand names, Euclid Chemical serves the global building market as an ISO 9001:2008 supplier of specialty products and support services.

The Euclid Chemical Company philosophy of “demonstratively better” is the foundation upon which Euclid Chemical serves and supports its customers. Cutting edge research and development, technical support and service, and an education-driven specification effort along with ongoing customer training provides Euclid Chemical customers with the best products and support in the industry.

Marketed through a network of over 1,200 distributors, ready-mix producers and masonry suppliers, Euclid Chemical products are recognized as the industry standard throughout the world.

As part of our commitment to helping promote sustainable design, Euclid Chemical has many products which contribute to Leadership in Energy and Environmental Design (LEED™) certification. Yet this commitment does not stop at the manufacturing level. Our employees constantly strive to improve the social and environmental impact of company activities while achieving an economic balance.
