

# STONE ESSENCE

## SEMI-TRANSPARENT STAIN

**STONE ESSENCE** is a concentrated, water-based coloring system that is used to transform indoor or outdoor, plain gray concrete into deep, rich, colored surfaces. Available in 20 standard colors, multiple colors may be combined or layered for added mottling effects. STONE ESSENCE semi-transparent stain will not chip, peel, crack or fade over time, and for greater protection should be top-coated with solvent or water-based sealers, urethane, or epoxy. Because STONE ESSENCE is odorless, it is the perfect alternative to traditional acid stains and may be applied in occupied buildings. Application is easy: Dilute with water, mix and spray-apply.

### CUSTOMER SUPPORT

- Technical Support – Available for product selection, application questions.
- Product Assistance – Locate a contractor or distributor. Support literature and in-depth written application instructions.
- Field Specialists – Increte-trained field specialists provide consultations and recommendations.
- Design Consultation – Complete with showroom and training facility.
- Seminars – 2-day seminars include classroom instruction on project estimating, marketing and sales tactics to grow your business all year long with hands-on product training (available in Spanish). On-site distributor training and webinars by request are also available.

# STONE ESSENCE

**STONE ESSENCE** is perfect for interior and exterior concrete and is an ideal product to touch up acid-stained surfaces. Transform plain gray concrete into deeply-colored, rich surfaces that have the appearance of natural stone.

Create a beautiful variegated surface with twenty available standard colors that when applied properly will not peel, chip, crack, or fade.

## STANDARD COLORS

Available in 20 standard colors.

**NOTE:** The printed color chart is for reference purposes only. Euclid Chemical recommends choosing colors from actual test samples.
