

MICRO-CRETE

CEMENTITIOUS MICRO-TOPPING

Transform dull, spalled-but-sound concrete surfaces into the look of brand new concrete without the expense of removing otherwise sound concrete. **MICRO-CRETE** is a single-component, micro-topping designed for interior and exterior application that only requires water for mixing. Due to the polymer-modified formula, this cementitious topping can be applied as thin as a featheredge or built up by adding multiple layers, and it can be broomed or trowel finished. MICRO-CRETE is fast setting and will accept foot traffic in 24 hours and the surface cures to 4000 psi (27 MPa). For added interest, MICRO-CRETE provides a perfect canvas for coloring with acid stains, dyes or integral pigments.

CUSTOMER SUPPORT

- Technical Support – Available for product selection, application questions.
- Product Assistance – Locate a contractor or distributor. Support literature and in-depth written application instructions.
- Field Specialists – Increte-trained field specialists provide consultations and recommendations.
- Design Consultation – Complete with showroom and training facility.
- Seminars – 2-day seminars include classroom instruction on project estimating, marketing and sales tactics to grow your business all year long with hands-on product training (available in Spanish). On-site distributor training and webinars by request are also available.

APPLICATIONS

- Commercial Entryways
- Driveways

MICRO-CRETE

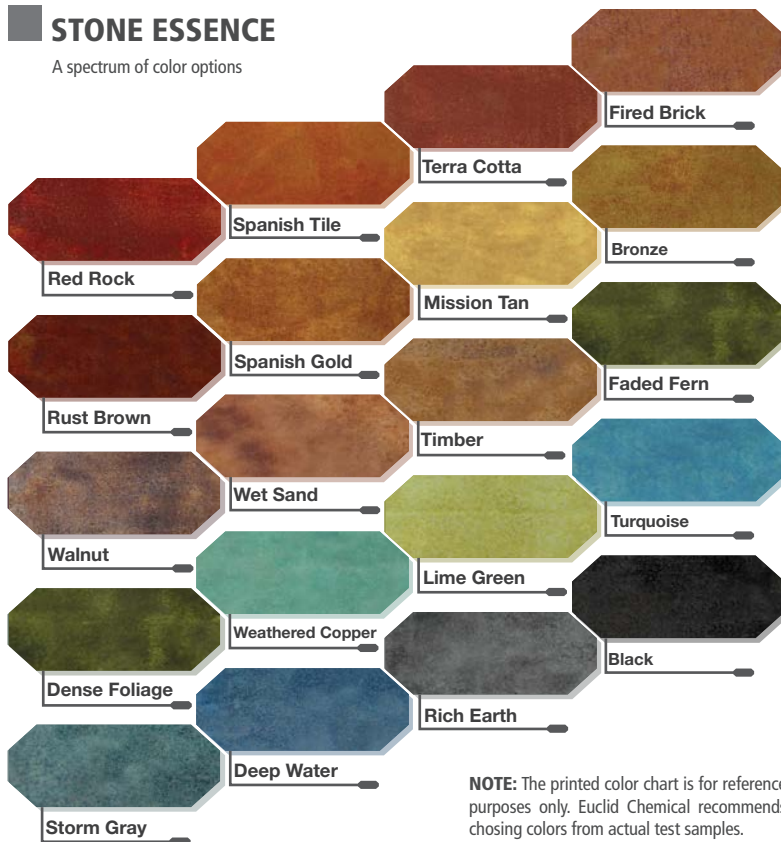

VIBRA-STAIN/VIBRA-STAIN SB

For interior use only.

STONE ESSENCE

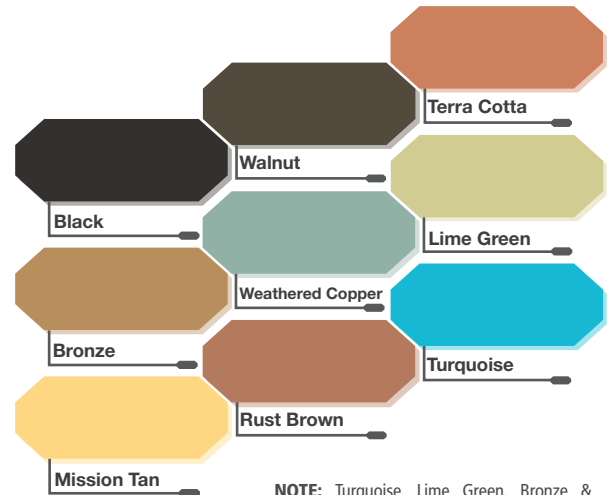

A spectrum of color options

NOTE: The printed color chart is for reference purposes only. Euclid Chemical recommends choosing colors from actual test samples.

STAIN-CRETE

Available in 9 standard colors.

NOTE: Turquoise, Lime Green, Bronze & Weathered Copper for indoor use only.

MICRO-CRETE surfaces may be sealed with any Increte solvent-or-water-based sealers, epoxies, or urethanes. Micro-Crete restores and renews exterior and interior surfaces.

FEATURES

- Single-component, polymer-modified compound
- Cures to 4000 PSI (28 MPa)
- Smooth or broom finish
- Apply up to 1/8 in (3 mm)
- Can be built up with multiple thin layers
- White or gray base colors available
- Long-term durability
- May be stained or dyed
- Can be integrally colored
- Fast-setting formula is walkable in 24 hours
