Re: **Speed Crete™ PM–LEED™** Product Information

To Whom It May Concern:

Euclid Chemical, as a company, is committed to quality, responsive to internal and external customers, our employees, our community and environment, and we will treat all with respect and good stewardship.

**Speed Crete PM** is manufactured in **Kirkland, IL**. If **Kirkland, IL** falls within a 500-mile radius of the project site, the product is considered to be a locally produced material and can help contribute to earning (MR) Regional Materials Credit.

No single extracted material is used to produce the majority of this product. Additionally, all raw materials come from one of several sources which in-turn come from one of several raw material feed stocks. As such, point source for the raw materials cannot be determined.

If you have any further questions please contact technical support at 800-321-7628.

Sincerely,

Euclid Chemical Technical Support
